```c
#include <stdio.h>
int main()
{
    int n, sum=0, i;
    float avg;
    printf("Enter the n value: ");
    scanf("%d", &n);
    int array[n];
    printf("Enter the values: ");
    for (i=0; i<=n-1; i++)
    {
        scanf("%d", &array[i]);
        sum = sum + array[i];
    }
    avg = sum/(n*1.0);
    printf("Avrage of these values is %f", avg);
    return 0;
}
```
